EXPERIENCE

CRM Landing Software Pvt. Ltd. Jan 2026 – Present
Mobile App Developer Ajmer, India

- Built the Small Commercial Vehicle (SCV) Field Service mobile platform utilizing React Native, TypeScript, and Redux.
- Supported 10+ enterprise workflows with scalable mobile architecture and modular, reusable components.
- Integrated Salesforce REST APIs, SOQL, and Mobile SDK for real-time synchronization of 500+ daily production records.
- Optimized application performance, data validation schemas, and workflow automation for reliable enterprise operations.
- Implemented Firebase FCM push notifications with deep-link navigation across foreground and background application states.

Yoctotta Technologies Private Limited Jun 2025 – Aug 2025
Full Stack Developer Intern Remote

- Engineered end-to-end full-stack web applications using React.js, Node.js, Express.js, and relational/NoSQL databases.
- Architected AI agents on the Kaman AI platform leveraging Model Context Protocol (MCP) for workflow automation.
- Built OTP-verified chatbot order systems with real-time processing, smart query handling, and seamless API integration.
- Integrated external APIs to enable automated, login-free operations powered by natural language input processing.

UDM Enterprises – 360° Marketing & IT Solutions Feb 2025 – May 2025
Frontend Developer Remote

- Developed responsive websites using HTML5, CSS3, JavaScript, and backend PHP, ensuring cross-browser compatibility.
- Optimized website and database performance, reducing load times by 35% through SEO, bug fixes, and refactoring.
- Integrated dynamic features and responsive UI enhancements, improving overall application usability and user engagement.

PROJECTS

Near To Women (Full Stack E-Commerce Platform) 2025
React.js, Node.js, Express.js, MongoDB, REST APIs, Redux, CSS

- Developed a full-stack e-commerce web platform for healthcare products featuring role-based authentication and state management.
- Implemented product listings, dynamic category filters, search capabilities, cart management, and order placement workflows.
- Integrated UPI payment gateways (Google Pay, Paytm, PhonePe) for secure, seamless checkout and transaction processing.
- Built secure REST APIs with JWT authentication, checkRole authorization middleware, input validation, and custom error handling.

Smart Career Assistant (AI Career Platform) 2026
Python, Flask, React, Scikit-learn, Gemini API, Regex (NLP)

- Built an AI career recommendation engine combining Random Forest ML classification with rule-based scoring models.
- Developed a Regex-based NLP resume parser, extracting 130+ technical skills for real-time personalized career recommendations.
- Integrated a context-aware Gemini AI chatbot maintaining 10-message conversational history for interactive career guidance.
- Designed dynamic learning roadmaps with a responsive React-based UI tailored to user skill profiles and industry benchmarks.

TECHNICAL SKILLS

- **Languages:** JavaScript, Java, HTML5, CSS3, Python, PHP
- **Databases:** MySQL, SQL, MongoDB, WatermelonDB, MongoDB Atlas
- **Technologies & Frameworks:** React.js, React Native, Express.js, Node.js, REST APIs, WebSocket, Bootstrap, Redux
- **Developer Tools:** Android Studio, AWS EC2, Figma, VS Code, Git/GitHub, Postman, Docker
- **Core Concepts:** Data Structures & Algorithms (DSA), OOPs (Java), Web Development, Low Level Design (LLD), SDLC

ACHIEVEMENTS

- **AICTE Recognition:** Received internship and appreciation certificates for completion of AICTE OIB-SIP Web Development.
- **IIT-ISM Dhanbad Hackathon 2024:** Ranked 12th out of 25+ teams for developing Docify (AI Medical Assistant) using Python, Streamlit, and Gemini API.
- **Google Cloud Arcade Badge:** Recognized for hands-on challenges in GCP services (Compute Engine, Cloud Storage, BigQuery).
- **Google Cloud Certification:** Earned certification in Google Cloud Computing foundational infrastructure from GeeksForGeeks.

EDUCATION

Driems University Odisha, India
B.Tech - Computer Science & Engineering (CGPA: 9.12) Aug 2022 – Apr 2026
